Photo Class Workflow

1) put your card into the card reader and choose DOWNLOAD WITH ADOBE BRIDGE and choose the U or V drive (or wherever the card/removable disk is), though it will probably come up automaticall	Adobe Bridge CS4 - Photo Downloader Source Get Photos from: V:\ <canon_dc> 4 Files Selected - 3.2MB 11/18/2009 - 11/22/2009 Uncet Selected</canon_dc>
 2) Browse and choose Y:\12-13 Students and then your folder 	Import Settings Location: Y:/12-13 Students/Your Name Browse Create Subfolder(s): Custom Name assignment name
 3) Choose CUSTOM NAME and then type the name of the assignment 4) Choose CUSTOM NAME and then type your name and the assignment (like sarahsmithshadows) 	Rename Files: Custom Name Your_name_and_assignment + 1 Example: YOUR_NAME_AND_STORY_0001.JPG Preserve Current Filename in XMP Open Adobe Bridge Convert To DNG Settings Delete Original Files Save Copies to: H:\My Pictures
5) Click GET PHOTOS	Advanced Dialog Get Photos Cancel

Next:

--choose which photos are the best and double click on one you want to turn in

--do whatever you want to them in photoshop

--save them to the folder they are already in as a .psd

--go to FILE>SAVE AS and go to your class folder and the assignment folder and save them there as a .psd
